ABOUT

Backend developer with 5+ years of experience building robust web systems in Laravel and PHP. Specialized in SaaS multi-tenant architectures, REST API design, and business logic implementation. Proven ability to take projects from architecture to production deployment. Open to remote opportunities worldwide.

EXPERIENCE

Software Architect & Lead Developer — Nexuterra · 2026

Multi-tenant SaaS platform for heavy machinery management companies. Built with Laravel 12 and DDD architecture, featuring subdomain-based multi-tenancy, hour-based billing via operator work logs, maintenance tracking, expenses, invoicing, payments and machine-level profitability reporting. Deployed in production at nexuterra.com.

Laravel 12 · PHP · PostgreSQL · DDD · Multi-tenancy · REST API · Docker

Fullstack Developer — POS System — Discoteca · 2025

Complete Point of Sale system with inventory management, category control, sales tracking, role-based user permissions and optimized admin panel for operational efficiency.

Laravel · PHP · MySQL · TailwindCSS · Blade

Backend Developer — WhatsApp Sales Automation · 2025

Designed and implemented a WhatsApp-based sales automation system with REST API backend, conversational state management, order intake logic, and production-ready deployment. Centralizes conversations and automates responses through structured sales flows.

Laravel · PHP · REST API · WhatsApp Business API

Lead Web Developer — Fundescam Web Platform · 2025

Institutional website for a social foundation, optimized for performance, scalability and future content expansion.

JavaScript · Vite · TailwindCSS
